Start Planning Now!!!

A FREE Educational College Financial Planning presentation with focus intended for parents of high school sophomores, juniors and seniors.

We discuss the FAFSA form and other necessary information to help you understand and maximize the amount of financial aid you are eligible to receive!

If your family is not eligible for need - based aid, we cover the best strategies on how to pay for college in the most cost efficient basis—without putting a strain on the rest of your finances.

In this session, you will learn:

- How to increase your college-related tax deductions and tax credits.
- How to pick colleges that will give you the best financial aid packages.
- How to send your child to an expensive private university for less than a state school.
- How to lower your “out of pocket” costs and get the maximum amount of money from each school.
- How to pay for college in a failing economy without relying on 529 plans, expensive private student loans or raiding your retirement accounts.
- How to get ahead by developing a customized plan to meet all the college costs you will incur as a family.
- Which assets are taken into consideration when the US Dept of Education calculates your Expected Family Contribution (EFC).
